RE: Grant payment

Draper Richards Kaplan Foundation is a global venture philanthropy organization supporting early stage, high impact social enterprises. We believe that with early funding and rigorous support, exceptional leaders, tackling some of society's most complex problems, can make the world a better place. We are a non-profit organization based in the United States.

We are distributing \$100,000.00 to Indus Action to be used for charitable purposes only related to facilitating enrollment campaigns that empower choice for inclusion seats and school education programs that mobilize community ownership.

Regards,

A handwritten signature in black ink, appearing to read 'Jared Leiderman', with a long horizontal flourish extending to the right.
